Assistant Commissioner for Patents
Washington, D.C. 20231
U.S.A.

Sir:

Re: United States Patent Application
Serial No. 09/932,945 Filed: August 21, 2001
Title: METHOD AND APPARATUS FOR
CONSTRUCTING A SUB-CARRIER MAP
Inventor(s): Douglas Hamilton TAYLOR et al.
Assignee: Cogency Semiconductor Inc.
Our File: 9-15417-5US MRW

Please substitute for the disclosure, claims and Abstract presently on file, the new disclosure, claims and Abstract enclosed herewith. Also enclosed is a marked-up copy of the specification showing the corrections made.

Due to a printing error, the Greek symbol "γ" did not print on the pages of the application as filed, as a result of which the symbol "γ" is missing from the specification. The attached new specification includes the missing symbol and it is respectfully requested that the Examiner consider the application as corrected. No new matter has been added to the specification; the replacement specification simply corrects a printing error.

If the Examiner has any problem with the substitution of the specification, he/she is respectfully requested to discuss the matter with Kevin Little of the USPTO Office of Initial Patent Examination, with whom we have discussed this matter.

Respectfully submitted,

Max R. Wood
Reg. No. 40,388
Agent of Record
MRW:kp/Encls.
